

BSI Standards Workshop on Energy Audits

www.bsigroup.com

Come and attend a free workshop to provide your input and comments on this draft European standard for 'Energy audits'.

This standard will specify the requirements, common methodology and deliverables for energy audits, and will apply to all forms of establishments, energy and use of energy, excluding individual private dwellings.

The aim of this standard is to provide much needed clarity to this important element of establishing energy efficiency improvements.

HIGHLIGHTS:

- > Hear about the first draft of the forthcoming European standard on 'Energy Audits'
- > Join a discussion with your peers on the content and purpose of this standard
- > Provide us with your comments on the draft and help us develop it further!

See the draft at: <http://drafts.bsigroup.caifs/708>

WHERE?

Room G1
British Standards
Institution
389 Chiswick High Road
London
W4 4AL

WHEN?

20th May 2011 -
10.30am
